

BEST PRACTICES in CHILD CARE ARE NOT SUPPORTED BY THE CAMPBELL GOVERNMENT

This child care provider is not receiving
adequate funding from
the provincial government's
Child Care Operating Funding Program.

Ask your MLA why the government is not funding your child care provider
to develop best practices that contribute to quality child care, such as:

- Flexible, responsive services that meet the diverse needs of parents and children
- A safe, healthy environment
- Daily stimulating, age/stage appropriate developmental experiences
- Consistent, nurturing and sensitive caregiver/child interactions
- The lowest possible rate of parent fees while maintaining quality
- Parent involvement in decision-making and child care operations
- Wage and benefit levels that attract and retain qualified staff
- Ongoing staff training and education
- Participating in a professional network with other providers
- Regular program assessment involving both staff and parents
